

Servicing Your Pneumatic Needs For Over 40 Years

## PFAS Declaration

April 9, 2025

To Our Customer,

Several regulatory actions are being put into place by various government bodies, including the United States Environmental Protection Agency (EPA) and the European Chemicals Agency (ECHA), regarding per- and polyfluoroalkyl substances (PFAS).

As of the date of this letter, to the best of our knowledge based on information provided by our suppliers, all of the tube and hose products found in Polyconn's catalogs do not contain PFAS substances as defined by the Toxic Substances Control Act (TSCA) Section 8(a)(7). Please note we do not test for these substances.

Regards,

A handwritten signature in black ink, consisting of a stylized first name followed by a long, horizontal, sweeping line that extends across the width of the signature area.
